Vinification

The grapes are harvested at optimum ripeness. Traditional vinification with a 15-20 days maceration depending on the plot. We do one or two pumping-over per day to extract the grape fruit. Temperatures are controlled to obtain wines of character combining structure and smoothness.

Winemaker's note

First look, there is a beautiful purple color with hints of ruby. On the nose, we get fresh and fruity notes remembering strawberry jam, peppermint, blackcurrant cream and a hint of violet flower. In the mouth, we taste a delicious wine with soft tannins on a fleshy body. A round final while providing a nice fruity aromatic length.

Concerned about environmental issues and sustainable development norms, Château Caillau Rousset is a member of the first Association for Environmental Management System ISO 14001 Bordeaux.
